

## SAWWA Scholarship Thank You Letter

I am writing to express my sincere gratitude to you for making the Sacramento Area Water Works Association scholarship possible. I was thrilled to learn of my selection for this honor and I am deeply appreciative of your support.

I recently graduated as valedictorian from Rio Linda High School and plan to continue my achievements at the University of California: Berkeley. I will be majoring in electrical engineering and computer science. With my degree, I plan to become a computer programmer in the future. I also hope to volunteer in schools later on helping make efforts to close the gender gap in engineering and other STEM fields. The financial assistance you provided will be of great help to me and allow me to get a college degree without causing financial strain on my family or taking out student loans.

Thank you again for your generosity and support. I promise you I will work very hard to pursue my degree in electrical engineering and computer science. I hope to one day be able to give back to others, as this scholarship is giving me the opportunity to pursue a world class education.

Sincerely,

Richel Dhaliwal
